

Diolaze Hair Removal Post Treatment Advice

The following advice is given for the safety and protection of the treated area, and for the efficacy of your treatment. It should always be adhered to to avoid adverse incidents and increase treatment results.

POST TREATMENT...

- Avoid heat treatments (sauna/steam room/swimming/exercise) for 48hrs
- Avoid hot baths/showers for 48hrs (keep water tepid)
-
- Avoid UV (sun or sunbeds) exposure in treatment area throughout treatment course and for 4 weeks after last treatment
- Use UV/sun protection SPF30+ on any exposed areas (e.g. face) throughout treatment course and for 4 weeks after last treatment
- Make-up may be applied after the treatment if skin is intact
- Do not remove hair from the root between treatments (e.g. wax/tweeze/thread/epilate)
- Only shaving/trimming is allowed
- Shave hair the day before treatment (unless otherwise discussed with your therapist)

I acknowledge that I have received, read and understand the above Post Treatment Advice and will adhere to this advice following my treatment.
